Porcelain Photo Plaques- Prices from £138.00 plus VAT (B&W) | £165.00 plus VAT (Colour)- minimum size: 90mm x 70mm

REGULATIONS

All memorials must be approved by the local burial authority. An application is submitted by us together with the relevant fee. The owner of the grave must sign the application. Should the owner be deceased, an application must be made to the relevant burial authority to transfer the ownership to next of kin or another third party.

COMPLETION DATES

We are committed at all times to meeting the target delivery date. Despite our best efforts some factors over which we have no control can affect the fixing schedule, in particular rain, snow, or ice - both here and also in the country providing the materials. We will keep you fully informed about the progress of your order and advise you of any delays that may become obvious.

Choosing a Memorial - Useful Notes

CHURCHYARDS AND CEMETERIES

The type of memorial that can be placed is governed by the regulations in place at the churchyard or cemetery. These specify the height, width, depth and material that may be used. Our staff will be able to guide your choice of memorial to ensure it achieves local authority approval.

MATERIAL

Subject to the regulations in force, the choice of material may be affected by the location of the proposed memorial. For example placing a marble memorial under a tree or hedge could result in staining from tree sap or decaying leaves. In this case it would be better to use granite which is non-porous.

LETTERING

Your choice of lettering may have a bearing on the type of material you choose. Marble is the best choice for flush lead lettering, whilst gilded lettering is at its best on polished granite memorials.

SPECIAL DESIGNS

You may of course choose a special design to incorporate in the memorial, but you should consider the colour of the material. Any intricate design work is more effective on a plain dark material. The detail could be lost if a mottled or light coloured stone is used.

MAINTENANCE

Some deterioration is inevitable but regular cleaning and maintenance will help to preserve the memorial in good condition. Polished materials wear better but are not allowed in many churchyards.

INSURANCE

Accidental damage or vandalism are unfortunately all too common. We strongly recommend that you insure your memorial against such damage. Our staff will be able to advise you on suitable insurance arrangements.

A LASTING SYMBOL OF REMEMBRANCE

We hope this information will be useful and informative. Should you have any queries our staff will be very glad to discuss them with you. Our aim is to work with you to provide a fitting tribute to your loved one. In close liaison with our stone masons we will ensure that your order is processed promptly and with great care to detail.

A memorial is a lasting symbol of remembrance, a tribute to a life now ended, perhaps a final gift to someone dearly loved. It is therefore extremely important that its design should be carefully chosen.

Our brochure has been created to offer you memorial designs in all of the traditionally used materials. Included in these are the finest of Italian marbles, coloured granites from all corners of the world and natural stones such as Portland, Purbeck, York and Slate which all originate from the British Isles.

However, if you are unable to find the memorial you require within our brochure, our staff will be pleased to talk through your suggestions and prepare a unique memorial to suit your personal requirements.

HM01	Tarn / Cornish Granite	Peon topped polished face with rustic sides with sanded back and border in Tarn / Cornish Granite	£1,075.00
